

I tell you or dear children, make sure to go on The pilgrimage I have commanded him, two Sundays ago When you make the pilgrimage I am with you You have to tell me: "Here I am or Lord" Why here everything that has been done and what we have to do the command I No must allow myself to stop My Will The book and all the messages have been dictated by Me No one should allow myself to do what I have not commanded, to show that they are great Here I am among you There are twenty years of messages, all dictated by Me These books have gone to the Vatican All the bishops of the area have it and also the province No One must allow to stop My Will I have commanded My Will it had to be put in writing. No one should insult My Will. And I also said: "Raise My Flag" No one should allow himself to insultar I am the Son of God Only Mary hears My words All the book was dictated by Me Mary did My Will You should not allow to insult My Will And I will make sure that these things can understand The pilgrimage you do when it has been established And that day you also bring authority To present My scriptures, the book So you understand that no one can pass before the Lord Let's say the Lord's prayer.
